### **Mad world- Corona Edition**

All around me are masked faces  
quarantined people, empty places  
Bright and early for their daily shoppings  
Going nowhere,going nowhere  
And their tears are filling up their faces  
No motivation, no motivation  
Hide my head, I want skip my homework  
No tomorrow, no tomorrow

And I find it kinda scary, I find it kinda sad  
The days in which I´m sticking are the worst I´ve ever had  
I find it hard to tell you, I find it hard to care  
When people stay at home it´s a very very  
Mad world, mad world

People waiting for the day, they feel free  
Happy Birthday, happy Birthday  
And I feel the way that everyone should  
Stay at home now, stay at home now

Want to school I´m sick of social distance  
no social contact, no social contact.  
Hello corona, tell me when you´re over?  
Please keep distance, please keep distance

And I find it kinda scary, I find it kinda sad  
The days in which I´m sticking are the worst I´ve ever had  
I find it hard to tell you, I find it hard to care  
When pandemic breaks out it´s a very very  
Mad world, mad world  
Reduce your world  
Mad world
